

## EUROTEQ STATEMENT ON DIVERSITY

---

In the EuroTeQ community of students and staff, diversity, inclusion and equality are founding principles. Our community and the quality of our education and research thrive on mutual respect, an open-minded culture, the free exchange of opinions, ideas and experiences and reciprocal appreciation.

We value diversity and ban all discrimination based on, in particular: social diversity, nationality, ethnicity sex, gender diversity, sexual orientation, educational background, disability, religion, world view, age. Inclusion is a way of dealing with each other that is necessary to achieve the best results and making sure that each individual feels valued for their contribution in the organization.”
