

## Critical Thinking, Ethics and Scientific Literacy

---

**Subject area:** Other subject area

**University:** TalTech  
**Level:** MA1, MA2, MA all years  
**Teaching mode:** completely online, at specific time  
**Instructor(s):** Amirouche Moktefi

### Short description

Science acquired a central status that makes its claims better regarded in public debates than any other kind of discourse. Technology is deeply changing our lives and affecting our habits. In addition, we are surrounded by information in a rapidly changing society. The aim of the course is to offer an analytical toolkit to understand this techno-scientific world. Students are expected to learn how to construct strong arguments and evaluate the strength of the arguments they face.

### Full description

### Learning outcomes

At the end of the course, the learner will be able to recognise the arguments that others make and evaluate their strengths, errors, fallacies, inconsistencies, biases and can distinguish factual from merely verbal disagreements; to recognise the principles of scientific reasoning and discredit pseudo-scientific claims and arguments; to comprehend the interplay between science, technology and society; to acquire ethical principles with application to problems in contemporary world; to demonstrate advanced reading and writing skills.

### General information

**Contact hours per week:** 4  
**Total workload:** 150 (in student hours for the whole course)  
**ECTS credits:** 6  
**Language:** English

**Course start date:** 20 September 2022

**Course end date:** 29 November 2022  
**Add. info about start date:** For Autumn 2022, first session takes place on 20 September.  
**Weekly teaching day/time:** 1 session per week  
**Time zone:** CET +1 (Estonia, Israel)  
**Further information:**

**Prerequisites:** None  
**Activities and methods:** Lectures, Seminars, Self-study  
**Presence on campus:** Not required

### Final examination

**Form:** assignment  
**Date:**  
**Location/format:** online  
**Re-sit possibility:** yes  
**Transcript available:** end of semester  
**Add. info/requirements:**

### Registration

To register for this course, follow the registration requirements of your **home university** as specified here: [www.euroteq.eu/courses-registration](http://www.euroteq.eu/courses-registration).

### Administration

**Number of places:**  
**Minimum participants:**  
**Internal course code:** MNF5510

*This course is part of the EuroTeQ Engineering University joint course catalogue 2022/2023. This is a collaborative activity of the partner universities DTU, L'X, TU/e, TalTech, CTU, TUM as well as Technion. Students from these universities can participate in the offered courses. It is the responsibility of the student to check if you fulfil the requirements to participate in a specific course. Students are also advised to check with their home institution how to get recognition of the ECTS credits gained in courses of the EuroTeQ course catalogue. For further information about EuroTeQ Engineering University, visit [www.euroteq.eu](http://www.euroteq.eu) or get in touch with the above-mentioned point of contact.*
