

The EuroTeQ Engineer (December) - Intercultural competencies for working in multicultural teams

Subject area: Language or culture course

University:	TUM
Level:	BA3, BA4, MA all years, PhD
Teaching mode:	completely online, at specific time
Instructor(s):	Rita Elekes

Short description

Future engineers are required to coordinate interdisciplinary projects and to collaborate with specialists from other domains. Successful engineering in a European context requires excellent intercultural communication skills and competences. In this workshop, students train intercultural agility, a crucial skill set for studying and working in a multicultural environment.

Full description

This course is part of the EuroTeQ Engineering University joint course catalogue 2022/2023. This is a collaborative activity of the partner universities DTU, L'X, TU/e, TalTech, CTU, TUM as well as Technion. Students from these universities can participate in the offered courses. It is the responsibility of the student to check if you fulfil the requirements to participate in a specific course. Students are also advised to check with their home institution how to get recognition of the ECTS credits gained in courses of the EuroTeQ course catalogue. For further information about EuroTeQ Engineering University, visit www.euroteq.eu or get in touch with the above-mentioned point of contact.
