

## World Economy and Business I.

---

**Subject area:** Economics

<b>University:</b>	CTU
<b>Level:</b>	BA all years
<b>Teaching mode:</b>	blended: mostly online, but presence on campus required in certain period
<b>Instructor(s):</b>	Tomáš Evan, PhD

### Short description

The course introduces students of technical universities to basic concepts of the world economy.

### Full description

The course introduces students of technical universities to basic concepts of the world economy. It does that predominantly by introducing topics of the history of the global economy, international trade and investment, and international institutions and trade policies. Students get to know about key characteristics of different world economic centres (exchange rates, taxes and tariffs, indebtedment, investment incentives).

### Learning outcomes

Seminars help to improve their knowledge in the form of discussions based on individual readings.
